Draught Proofing

What is it?

Draught proofing is a form of blocking unwanted gaps within your home. The most common set of draught proofing measures can be applied to:

- > Doors - including keyholes and letterboxes
- > Windows
- > Loft hatches

How does it work?

If draughts are uncontrolled they let in too much cold air and waste heat. Draught proofing allows you to block up unwanted gaps that let cold air in and warm air out.

Benefits

Draught proofing is one of the cheapest and most efficient ways to save energy and money in your home. Draught-free homes are also more comfortable at lower temperatures.

What are the potential savings?

According to the Energy Saving Trust, the potential annual savings, in a typical 3 bedroom semi-detached house could be:

> **£55**

What are the typical costs?

If you were to have these measures installed without Green Deal, this would typically cost you upfront:

> **£200 - £400 for professional installation.**

Draught Proofing

How can I benefit from Green Deal?

By taking advantage of the Green Deal, you can receive finance to have these energy-saving improvements installed in your home at no full upfront cost. The savings you make will always be greater than the cost of repayments on the measures installed.

Will it be suitable for my home?

Draught proofing is beneficial to all homes. Your NICEIC Green Deal Advisor will provide you with impartial advice on the measures most suitable for your home.

Where and how is it installed?

Draught Proofing measures are relatively cheap and simple to install and are typically fitted to doors, windows and loft hatches throughout the home.

What do I need to do next?

Step 1

Get an energy assessment report completed on your home by an NICEIC Green Deal Advisor.

Step 2

Present your report to a Green Deal Provider who will assess whether to approve the finance on the measures you wish to install and coordinate your Green Deal plan.

Step 3

If approved, the Green Deal Provider can arrange for the installation to be carried out by an NICEIC Green Deal Installer.

Step 4

Once installed, your Green Deal payments will be included as instalments in your energy bill. This will be arranged for you by your Green Deal Provider and your energy supplier.
