

INSULATION >

Flat Roof Insulation (Loft)

What is it?

Flat roof insulation is achieved by installing a rigid insulation board on top of a roof's existing weatherproof layer. It is also possible to insulate a flat roof from underneath.

How does it work?

Insulation material is added above or underneath a flat roof reducing heat loss from your home.

Benefits

Flat roof insulation reduces your heating bills, protects against rising energy costs and lowers your home's CO² emissions.

What are the potential savings?

According to the Energy Saving Trust, the potential annual savings on a house with a flat roof could be up to:

> **£180**

What are the typical costs?

If you were to have this measure installed, without Green Deal, you would need to make an upfront payment to cover the insulation costs and installation fees. Costs vary considerably depending on the type and size of the flat roof.

How can I benefit from Green Deal?

By taking advantage of the Green Deal, you can receive finance to have this energy-saving improvement installed in your home at no full upfront cost. The savings you make will always be greater than the cost of repayments on the measures installed.

Will it be suitable for my home?

Flat roof insulation is only suitable for homes which have a flat roof that is uninsulated. Your NICEIC Green Deal Advisor will provide you with impartial advice on the measures most suitable for your home.

Where and how is it installed?

Flat roof insulation involves fitting rigid insulation boards on top of a flat roof's existing weatherproof layer. It is sometimes possible to insulate a flat roof from underneath.

What do I need to do next?

Step 1

Get an energy assessment report completed on your home by an NICEIC Green Deal Advisor.

Step 2

Present your report to a Green Deal Provider who will assess whether to approve the finance on the measures you wish to install and coordinate your Green Deal plan.

Step 3

If approved, the Green Deal Provider can arrange for the installation to be carried out by an NICEIC Green Deal Installer.

Step 4

Once installed, your Green Deal payments will be included as instalments in your energy bill. This will be arranged for you by your Green Deal Provider and your energy supplier.
